

Premier Bed Run Line

Straight leader →

Well Branched →

Colorado Spruce

Our Famous
Heavy Root System →

Five-year-old Colorado Spruce

We have always had our own niche in the bare root evergreen line. There are other growers out there that grow a bare root product; but when you compare ours to theirs, it really is like comparing apples to oranges.

Our unique location provides a climate that is sunny and cool in the summer to promote strong thick branching and heavy root systems. Our cold Northern Wisconsin winters ensure a hardy liner.

Our plants are four-year and five-year-old liners with a wonderful root system (you won't see any swipes from Evergreen Nursery) and nice straight leaders. You will get a premier bed run liner at a great price!
